Welcome to the instruction manual for the Icons2Go WordPress plugin. This document will help you through the setup of your website.

TABLE OF CONTENTS

INSTALLATION	. 2
ACTIVATE AN ICON SET	. 3
ADDING ICONS TO YOUR PAGES	. 4

INSTALLATION

1. Unzip the product folder downloaded from Codecanyon on your desktop.

Do not upload the entire product folder as it contains also the manual.

- 2. Go to the WP Plugins page and click "Add New".
- 3. Click "Upload Plugin".
- 4. Click the "Choose file" and find the unzipped plugin folder in your desktop. Choose the plugin file called **icons2go.zip.** Then Click "**Install now**".

5. Click the "Activate Plugin" link.

ACTIVATE AN ICON SET

- 1. To make an icon set available for usage go to Icons2go panel settings
- 2. Click "Activate set".

ADDING ICONS TO YOUR PAGES

1. When you edit a page or post, click on the button "Icons2Go".

🕼 Dashboard	Add New Page

Comments	Paragraph 🔻 B I 🗄 🗄 😘 🗮 🗮 🖉 🗞 🧮 🚟 Icons2go
🔊 Appearance	1
🖌 Plugins	

- 2. A modal window will appear. Now you can choose your icon.
- 3. Customize icon settings.
- 4. Add icon

ICONS BOOKMARKING

Icons bookmarking in the settings page **is only a visual help** for your icon settings. In the settings page, you can click on any icon to "bookmark" it. When you bookmark an icon, on the sets list a star (\bigstar) will appear for the font set where that icon belongs.

Notice: Bookmarking icons doesn't affect activation and only works as visual cue to know which icons you like and which sets they belong to.

Bookmarking inactive icons

If you bookmark any icon belonging to an inactive set, in the sets list a warning (**0**) will appear, to remember that you want to use an icon from an inactive set. You can click on the set name to scroll until the activation button, and activate your set. Upon set activation/deactivation or page reload, the bookmarks will be removed.

SHORTCODES

Shortcode structure [t2gicons icon="" size="" fontsize="" bgcolor="" color="" shape="" link="" target="" type=""]						
Parameter	Usage	Possible values				
icon	Css icon class	Check class names in hover or use the Visual Composer or TinyMCE icon generator.				
size	Background shape size (fixed values)	[10,20,30,40,50,60,70,80,90,100,110,120,130,140,150,160,170,180,190,200]				
fontsize	Symbol size (fixed values)	[10,20,30,40,50,60,70,80,90,100,110,120,130,140,150,160,170,180,190,200]				
bgcolor	Background color	[red, pink, purple, deep-purple, indigo, blue, light-blue, cyan, teal, green, light-green, lime, yellow, amber, orange, deep-orange, brown, grey, blue-grey, black, white, transparent]				
color	Icon color	[red, pink, purple, deep-purple, indigo, blue, light-blue, cyan, teal, green, light-green, lime, yellow, amber, orange, deep-orange, brown, grey, blue-grey, black, white, transparent]				
shape	Background shape	[none, circle, square, rsquare, rhombus, circle-border, square-border, rsquare-border, rhombus-border]				
align	Icon alignment	[none, left, center, right]				
link	Link URL	http://				
target	Target for your link	[none, _top, _blank]				
type	Icon set name	Auto-generated by Visual composer, not needed for manual shortcode use				

IMPORTANT

You cannot use an icon set before the activation. You don't need to activate icons singularly in order to use them; you only need to activate its icon set. Notice: the more sets you activate, the slower your site will be. Activate only the icon sets you need. Notice: If you deactivate a set that is being used in some page, the icons will appear empty for your visitors. The settings page has no way to know if you used a certain icon in your pages.

SUPPORT

To provide support in the most efficient way, we provide an online Helpdesk forum, where you need to register in order to post your requests. You can reach it at www.themes2go.xyz/helpdesk.

We do not provide support via email nor Themeforest comments.
