

TEMPLATE DOCUMENTATION

NOTE: Please install the fonts on your computer before opening the PSD files.

FONTS

This template uses the following fonts

- Open Sans: <https://www.fontsquirrel.com/fonts/open-sans>
- Montserrat: <https://www.fontsquirrel.com/fonts/montserrat>
- Dripicons: <http://demo.amitjakhu.com/dripicons/>
- QT Icons: <http://qantumthemes.com> (included in the product)

All the fonts are open source and provided within the FONT folder of the product. QT Icons have been created by QantumThemes and are open source too. the font is available also as webfont for your HTML page.

Montserrat and Khand fonts have their own Google font Webfont for HTML implementation.

HOW TO USE THE TEMPLATE

1. Install all the fonts listed above in your computer. They are available in the folder **02.FONT**
2. Install the color palette by clicking **COLOR PALETTE.aco**
3. Open the PSD files
4. You can use the file 00 - TYPO.psd as a copy and paste resource to copy new icons to your project and copy the exact font size from the guideline.
5. Important notice: the icons are used as open font family. This means that if you don't install the icon families, you are going to see random characters instead of the icons. **Please install the fonts on your computer before opening the PSD files.**

LIST OF TEMPLATES

FILES OF THIS PROJECT:
